

What's it good for?

Online UPS 30A with Two 200Ah 12v batteries

Office WorkStation Super UPS

Power two desktop computers and 20W florescent light through a 9 hour long blackout

Server & Network Super UPS

Power **one** Synology NAS plus
four 8-port network switches plus
Two WiFi access points plus
an Internet Modem and a Firewall
for **over 14 hours** during a power outage

Note: The Pure Sine wave inverter is *ALWAYS* running, isolating your equipment from power surges and lightning induced spikes coming through the AC power lines.

Run times will vary depending on the exact power draw of your equipment and the battery size.
